

# GROUP REQUEST for WATER MANAGEMENT IMPROVEMENT

NO: 133

DATE: November 22, 1977

To: Ottawa Soil and Water Conservation District

Name of Project: Bolsinger Road Ditch Group

Location: Section 22; Township Salem;

Range R 15 E T 6 N; County Ottawa; State Ohio

We, the undersigned landowners, request assistance for the investigation and determination of the feasibility of open drainage improvement. We grant the District or its representative ingress and egress on our land to make a survey.

The District shall not be liable for damage resulting from this survey and investigation except any damage caused by gross negligence or willful misconduct. We agree to furnish labor and materials as needed to assist in making the survey and investigation.

We further agree that if the preliminary survey indicates the proposed improvement to be feasible and practical, and the group decides to proceed with the project, we will initiate necessary action in compliance with the Ohio Drainage Laws for the construction and maintenance of the improvement. It is further understood that the survey will be made without costs to the undersigned landowners with the exception of mutually agreed to labor and materials needed to assist in making the survey and investigation.
