COUNTY DITCH PETITION

Single or Joint

Revised Code, Secs. 6131.04; 6133.02, .03

Danbury Township, Ottawa County, Ohio,

July, 2018

Petition to ¹ maintain, reconstruct, and/or install a storm sewer or open channel, inclusive of an outlet protection device, to convey storm water runoff from North Shore Blvd. through Rockport Subdivision, located in Danbury Township.

To the Board of County Commissioners, Ottawa, County, Ohio:

The undersigned hereby petition *your honorable body to* ¹ initiate the process to maintain, reconstruct, and/or install a storm sewer or open channel to convey storm water runoff from North Shore Blvd. through Rockport Subdivision, located in Danbury Township. This petition shall also attempt to address the perpetual build-up of drift material at the ultimate drainage outlet at the shore of Lake Erie.

On the course hereinafter set forth.

The construction of the improvement is necessary, will benefit the petitioner(s), and will be conducive to the public welfare.

The following is the course and termini of said proposed improvement, to-wit:

The drainage course will begin at the ODOT standard 2-2B catch basin located near the North Right-of-Way line of North Shore Blvd. and the West property line of Rockport Subdivision, then continues along the West property line of Rockport Subdivision to the ultimate outlet at Lake Erie. This course shall extend as far as necessary to ensure the proper cleaning, dredging, and/or construction of devices to alleviate the accumulation of drift material, rock, sand, etc. at the outlet of said storm sewer conveyance system.

All costs of engineering, construction, and future maintenance will be assessed to the benefiting parcels of land, except under Section 6131.31 of the Revised Code.

The following is the nature of the work petitioned for: Petitioner requests to install/maintain a drainage system that is necessary to provide positive drainage for the above described areas. Said work shall include, but not be limited to, installing ditches, catch basins, creating waterways, spillways, installing tile, seeding, consideration of feasibility of building a shore protection device, and possibly removing landscaping, structures, trees, fences, concrete drives or anything else that would conflict with the construction/maintenance of said storm sewer conveyance system.
